Foreword

It is a matter of great satisfaction for us that Planning & Development Department has been able to publish —AJK at a Glance 2014|. It provides important statistics in respects of socio-economic conditions of the State. These statistics would be useful for policy makers, planners, researchers and other users of socio-economic data in public as well as private sector.

Azad Jammu & Kashmir (AJ&K) is blessed with abundant natural resources i.e. water, minerals, forests, places of tourist attractions and above all the dynamic educated youth. The development vision of the Government of AJ&K reflects the aspirations of the people and firm resolve of the government to ameliorate the socio-economic conditions in the State. The people of AJ&K acknowledge with thanks the generous and continued support extended by the Government of Pakistan despite prevalent resource constraints and energy crises in the country.

I take this opportunity to express my gratitude to all the officers of Planning & Development Department who contributed towards compilation of this document and deserve appreciation for rendering valuable efforts in producing this quality document.

I am thankful to all nation building departments of GoAJ&K for providing us the required data as without their co-operation it would have not been possible to publish this document in time.

For convenience and easy accessibility to larger users of the data, the publication has been available on the official website of Planning & Development Department www.pndajk.gov.pk

I look forward to further improvement of this publication in coming years and welcome any suggestion in this regard.

(Mansoor Qadir Dar)
Secretary (Dev.)

June,2015

PROFILE OF AJK REGION

Geographical and Socio-Economic conditions:

Topography

The state of Azad Jammu and Kashmir lies between longitude $73^{\circ} - 75^{\circ}$ and latitude $33^{\circ} - 36^{\circ}$ and comprises an area of 5134 square miles (13,297 square kilometers). AJK falls within the Himalayan orogenic belt. As such, its topography is mainly hilly and mountainous characterized by deep ravines, rugged, and undulating terrain. The northern districts (Neelum, Muzaffarabad, Hattian, Bagh, Haveli, Poonch, and Sudhnoti) are generally mountainous while southern districts (Kotli, Mirpur, and Bhimber) are relatively plain. The mountain ecosystems are relatively unstable and have low inherent productivity. Within this fragile environment, however, there is a great variety of ecological niches upon which people base their livelihood. Small land holdings and scarcity of cultivable land are the main factors limiting on-farm income. The area is full of natural beauty with thick forest, fast flowing rivers and winding streams. Main rivers are Jhelum, Neelum and Poonch.

Climate

Depending on the altitude that varies from 360 meters in the south to 6325 meters in the north, AJK has a wide range of climatic conditions. The south has dry sub-tropical climate while the north most moist temperate. There is significant variation in the rainfall pattern across different regions both in terms of amount and distribution. Average annual rainfall ranges from 1000 mm to 2000 mm. In the northern district 30% to 60% precipitation is in the shape of snow. In winter snow line is around 1200 meters while in summer it is 3300 meters. Average maximum temperature ranges from 20°C to 32°C while the average minimum temperature range is 04°C to 07°C

Soil

Based on the location, the soil in AJK can be broadly grouped into 03 categories:

- Soil of mountain plateau is generally leached and relatively infertile.
- Soil of mountain slopes is gravelly loam, shallow and deficient in organic matter.
- Soil of inter-mountainous valleys is alluvial with a high agricultural potential.

Regional Variations

The terrain, resources and socio-economic conditions vary across different regions. Muzaffarabad Division, the largest division is less accessible and the poorest, especially the northern part of District Neelum valley. As one moves south from Muzaffarabad towards Bagh, then Poonch, Sudhnoti and Kotli, the valley widens up and agricultural production increases. The area is more accessible, especially from Pakistan. The border area with India remains a restricted zone; otherwise life carries on as usual. Kotli is partially hilly, and Bhimber and Mirpur further south are plains and are similar to agricultural regions of northern Punjab. Settlement size is larger here and rich in agricultural production.

Geographical Feature

Area	5134 Sq. Miles 13297 Sq Km. 1.330 Million Hectors 3.286 million Acres
Longitude Latitude	73° — 75° 33°— 36°
Topography	Mainly hilly and Mountainous with terraces Valleys and Plains at some places.
Climate Temperature	Sub-tropical highland type Maximum 45.2°C Minimum -02.6 °C
Rainfall	1300 mm on the average
Elevation from sea • Range from South • Range from North	360 meters 6325 meters
Snow Line • In Winter around • In Summer around	1200 meters 3300 meters
Main Rivers	Jhelum , Neelum & Poonch

Languages

Urdu is the official language of Azad Kashmir but is spoken by only a minority of people. Other languages are Gojri, Kashmiri and Pahari. The dominant language spoken in the state is Pahari, which is very similar to Pothwari and Hindko.

Economic Development

At the time of partition in 1947, the economy of Azad Jammu and Kashmir was on sustenance level but the determination to develop the area was there. In early 70's, economic development of the area started in earnest. Despite financial constraints, planners made good efforts in laying down a proper path for the rapid development of the area.

Per Capita Income and Employment:-

The majority of the rural population depends on forestry, livestock, agriculture and non-formal employment to eke out its subsistence. National average per capita income has been estimated to be 1512 US\$* and according to Labour Force Survey (LFS) unemployment rate is 14.4%** . In line with the National trends, indicators of social sector particularly health and population have not shown much proficiency. Efforts have been made during the recent past to make up this deficiency so that the fruits of development can be brought to the door step of every common man.

ADMINISTRATIVE SET UP

Azad Kashmir is divided into three divisions (Muzaffarabad, Poonch & Mirpur) and ten administrative districts with Muzaffarabad as the capital of the State. The Muzaffarabad Division comprises of Muzaffarabad, Hattian and Neelum, Poonch Division comprises of Bagh, Haveli, Poonch & Sudhnoti districts whereas Mirpur Division consists of Mirpur, Kotli & Bhimber Districts. These ten districts are further divided into 32 Subdivisions, 189 Union Councils and 1771 Revenue Villages. There are 5 Municipal Corporations, 13 Municipal Committees, 18 Town Committees and 31 Markaz Councils, which are administrated by the LG&RD Department.

GOVERNMENT

Azad Kashmir has a parliamentary form of Government. The President of Azad Jammu and Kashmir is the Constitutional Head of the State, while the Prime Minister, supported by a council of Ministers, is the Chief Executive. Azad Kashmir has its own legislative assembly comprising 41 direct and 8 indirect elected members, a member each from Technocrats, Mashaikhs, Overseas Kashmiris and 5 female members. The AJ&K has its institutions of Supreme Court and High Court.

EDUCATION 2014

Education has been a priority of the Govt. of Azad Jammu & Kashmir as about 30% of its total recurring budget, besides, 7% of the total development budget is allocated to this sector. As a result of this substantial investment, AJ&K's literacy rate is 74% which is significantly higher than the national average of Pakistan. At present the gross Enrollment rate at primary level is 119% for boys and 113% for girls (between the age of 5-9). District wise literacy rate is given below.

Name of District	Literacy Rate %
AJK	74
Muzaffarabad/Hattian	72
Neelum	54
Bagh/Haveli	74
Poonch	81
Sudhnoti	79
Kotli	73
Mirpur	78
Bhimber	79

Airports

The Government of Azad Jammu and Kashmir in collaboration with the Civil Aviation Authority of Pakistan has constructed two small airports in Muzaffarabad and Rawalakot cities in order to provide easy and fast mode of travel (Flights presently suspended). About 1.5 million People belonging to AJ&K are living abroad, hence; there is dire need for construction of international airports in AJ&K. Therefore, Mirpur airport will be constructed in collaboration with Civil Aviation Authority GoP.

POWER 2014

At present, the installed Grid capacity is **677.3** MVA. About 25861 km transmission lines have been extended to 1670 villages out of a total of 1771 villages and about 4.267 million population have been provided with electricity supply. The per capita electricity consumption is 353 KWH and within next two years 100% population of AJK is planned to be provided with power connections. The Government lays great emphasis on generating electricity in order to meet the growing domestic as well as industrial requirements. It has been planned to launch a comprehensive programme for construction of Hydro power stations to exploit this vast potential.

HYDRO POWER GENERATION

Up to 1973-74, electricity facility was available to few villages of District Muzaffarabad & Mirpur. In 1973-74, a phased program was planned to provide electricity to urban & rural population, which is being continued. Under this program, several schemes have been implemented through which electricity distribution network has been expanded up to 91% population of rural areas of AJ&K. Approximately **537606** service connections have been provided under this program.

AJ&K has a potential of generation of 8830.820 MW of electricity using its natural resources.

SPECIAL COMMUNICATIONS ORGANIZATION (SCO) - 2014

SCO raised since 1976, is providing state-of-the-art, modern IT and Telecom facilities in the most difficult region of Azad Jammu & Kashmir, current services include landline Telephone (PSTN), Mobile (GSM), Wireless Local Loop (WLL), Internet Broadband (DSL) and Digital Cross Connect (DXX). Despite competitive market, de-regulated telecomm environment and presence of all cellular giants in the area, SCO has been declared Significant Market Player (SMP) by the PTA during current year.

Vision of the SCO is stipulation of reliable, effective, innovative and up-to-date voice and data communication services to the people living in the most rugged / arduous terrain.

PIPED WATER SUPPLY 2014

At the time of independence, availability of piped water supply was non-existent but significant progress has now been made in this regard. Presently 68% of the urban population and 58.4 % of rural population has been provided with a piped water supply through house connections and public stand posts. Out of 1771 villages, 1032 have been provided with water supply facility.

PRODUCTIVE SECTORS

AGRICULTURE 2014

Area under cultivation is around 194260 hectares, which is almost 13% of the total Geographical area out of which 92% of the cultivable area is rain-fed. About 87% households have very small land holdings between one to two acres. Major crops are Maize, Wheat & Rice whereas minor crops are Grams, Pulses (red kidney beans), Vegetables and Oil-seeds. Major fruits produced in AJK are Apple, Pears, Apricot and Walnuts. Agriculture and livestock income ranges between 30-40% of household earnings. The remaining share comes from other sources including employment, businesses and remittances received by the families of AJ&K living abroad. Reduced agriculture productivity has adversely affected the traditional lifestyle and per capita income of the rural households.

FOREST 2014

About 42.6% of the total Geographical area (0.567 million hectares), is controlled by the Forests Department. The per capita standing volume is 299.5 Cft and per capita forest area is 0.35 Acre. Annual wood demand is 1.65 million cubic meters and sustainable production is 1.94 million cubic meters. The local communities have traditional rights in terms of use of the forests and on an average three trees are burnt by one household every year for the fuel-wood requirements in the absence of alternate sources. Similarly, about 5 trees on average are required to construct a house for which the wood roofs have to be replaced after every 8-10 years.

INDUSTRIES & MINERALS 2014

Investment Opportunities in Azad Kashmir

The State of Azad Jammu & Kashmir by virtue of its topography, meteorology, hydrology & administrative setup provides huge opportunities of investment in various sectors. Keeping in view the investment potential in AJK the Government is encouraging investment in the following sectors:-

Industrial Investment

The Government has adopted the Industrial policy of Federal Govt. according to which all types of industries are allowed to be established in the territory of AJK except Arms & Ammunition, Security printing, Explosive material and Radioactive material.

In order to accelerate the pace of development, the department of Industries has established 6 Industrial Estates in various districts of Azad Kashmir with basic infrastructure like roads, water supply, and sewerage system and telephone & electricity facilities. The number of medium & large scale Industries which have already been established in different districts of Azad Kashmir is 1970.

In view of the localized requirement of AJK, there is huge potential for Industries like Food, Hydro power generation, Ready made garments, furniture and plastic products in the area.

In order to boost the Industrial Production in AJK, the Govt. is providing incentives to the Industrialists including concession in different taxes and providing energy on cheaper rates for first five years to run the Industries. It will be advisable that detailed feasibility of industrial products must be carried out for making final decisions of investment.

Mineral Resources

The Geological environment of AJK comprises generally 3 types of rocks i.e. Sedimentary, Igneous and Metamorphic. The Industrial minerals and base metals are found in all of 3 rocks spreading all over the AJK territory. In AJK mineral exploration activities started in 1973 by AKMIDC, a state owned corporation and emphasis was laid on assessment of potential economic deposits and an analysis of value of the different minerals discovered in the area so far amount to 137.915 million tons.

Development of Cottage Industry and Kashmiri Handicrafts.

There are many investment opportunities in traditional handicrafts of Kashmir. Azad Kashmir Small Industries Corporation (AKSIC) established in 1992, is an official body committed to promote the development of handicrafts and in turn the economic betterment of the working handicraftsmen. AKSIC objective is to educate and assist the working craftsmen to set up and run their business properly. Equipped with God gifted resources and manned with requisite expertise, the AKSIC is committed to honor the buyers, demands, preferences and requirements.

RESCUE & RELIEF OPERATIONS

World's biggest rescue and relief operations started within hours of the occurrence of the earthquake

- 50 helicopters deployed
- Generated 19,000 sorties

- People initially migrated to Camps(Total No.): 116,512
- Camps established (Total No.): 125

Relief items distributed:

- i. Medicines 855.2 tons
- ii. Rations 75,962 tons
- iii. Blankets 1.91 million
- iv. G.I sheets 6.000 million
- v. Tents 0.400 million
- vi. The relief goods provided by the NGOs/ Civil Society are uncountable.

- All primary and secondary roads were opened, communication and power restored.
- Averted additional deaths from exposure to severe climatic condition, hunger and disease

Source: SERRA Office, Muzaffarabad.

**Progress of Reconstruction
&
Rehabilitation Program in AJK**

RECONSTRUCTION & REHABILITATION PROGRAMME

Due to the earthquake of 8th Oct 2005 about 7000 Sq Km area was affected. It severely affected 1.8 million people while 46570 people died. It also seriously injured 33136 and displaced 0.116 million people. Infrastructure and communication system was collapsed and agricultural lands were severely damaged. The main objective of the Reconstruction Programme is to move towards permanent and sustainable reconstruction and rehabilitation of the affected area with the aim to —Build Back Better! in terms of physical infrastructure, size and scope of activities; and the quality of services to the people of affected areas.

Reconstruction & Rehabilitation Programme is mandated to undertake the gigantic task in the earthquake affected areas in the major socio-economic sectors i.e.

- **HOUSING:** Includes the Rural and Urban housing as well as town planning.
- **LIVELIHOODS:** Includes livelihoods cash grants for vulnerable households;
- **EDUCATION:** All education facilities have been made functional through provision of interim structures like pre-fabricated buildings and large weather proof tents. Moreover, comprehensive permanent reconstruction strategy has been finalized and approved by the competent forum.
- **HEALTH:** All health facilities have been made functional through provision of interim pre-fabricated structures and a comprehensive health strategy has been finalized for permanent Reconstruction Programme.
- **WATER & SANITATION:** Water and sanitation (WATSAN) strategy covering water supply, sanitation, solid waste management and reconstruction of relevant departments building has been finalized and approved by the competent forum.
- **GOVERNANCE:** The administrative structure in the districts of Muzaffarabad, Neelum, Bagh, Poonch and Sudhnoti were disrupted by the destruction of administrative complexes. The majority of buildings, both offices and residences were destroyed or damaged, including the civil secretariat and the Supreme Court. Governance sector strategy aimed at reconstruction and rehabilitation of all damaged buildings of Government departments, has been finalized and approved by ERRAC Council.
- **POWER:** The Power sector was severely damaged by the earthquake. However most of the damaged structures were repaired on urgent basis. Distribution and retail services delivery infrastructure were the most damaged by the earthquake. Power sector strategy has been approved for reconstruction of damaged infrastructure.

- **ROADS/TRANSPORTS:** The earthquake caused severe damage to the transport system in the affected areas of AJ&K. It is estimated that 2551 Km of roads were partially or fully damaged in AJ&K. The poor state of roads is one of the largest challenges facing Reconstruction Programme. Transport sector strategy for reconstruction & rehabilitation has been finalized and approved by the competent forum.
- **TELECOMMUNICATION:** In the telecommunication sector, the key organizations in the earthquake affected areas are mainly PTCL and SCO. Telecommunication sector has been finalized and approved by the ERRRA Council.
- **SOCIAL PROTECTION:** Although the entire population affected by the earthquake is vulnerable, the social protection program focused specifically on the groups which are at the greatest risk. Social protection strategy for reconstruction & rehabilitation has been finalized.
- **ENVIRONMENT:** The most visible affect of the earthquake had on the environment, is the land-shearing, liquefaction, and slides that occurred as a consequence of the earthquake. The earthquake destroyed water channels; resulted in the siltation of some rivers and streams; deteriorated forest resources; caused massive destruction to farm lands, especially terraced land situated on steep terrain; and destroyed many fish farms. The disposal of massive amounts of debris from fallen structures is a significant environmental challenge.
- **TOURISM SECTOR:** The vast majority of hotels and other tourist infrastructure were destroyed by the earthquake. A policy approach for the reconstruction and rehabilitation of the tourism sector is yet to be formulated.
- **Urban Development:** Master Plan for 3 cities (Muzaffarabad, Bagh & Rawalakot) prepared. City Development Projects for these three cities costing Rs. 21.136 billion, 7349.76 million and 8202.60 million respectively are approved. Moreover, natural gas has also been announced to be provided to these three cities as a part of Reconstruction Program.

OVERALL DISBURSEMENT OF HOUSING CASH GRANT FOR RURAL AND URBAN HOUSES**Total compensation paid till date: Rs. 49.584 billion (99.5%)**

<u>1st Tranche:</u> @ Rs.25000	Rs. 7.862 billion paid to 314474 (100%) beneficiaries (287896 Rural + 26578 Urban)
